

Regain your hope and find your health!

We are a facility that helps the community receive health and freedom from the strongholds of mental and physical illnesses. We use acupuncture, herbal medicine, cupping, aromatherapy, and dietary therapies to bring the body back to balance. We treat pain, anxiety, depression, stress, insomnia, addictions, digestive issues, menstrual issues, fertility, and much more! Acupuncture and its adjunctive modalities are relatively painless, free from side effects and can provide both remedial and preventive care. We use only the finest, sterile, disposable needles and try to employ the gentlest, least painful needle technique.
